

The Kersten Group of companies is an exciting and dynamic Group of companies with 21 operating companies and experience in the energy sector, industrial equipment, building & construction, trade, hospitality, car sales, healthcare and various other areas. For our Kersten (Oil & Gas) Training Academy we are looking for an experienced and driven:

Instructors

Job Summary:

Candidates will follow an intensive internationally certified training abroad and ultimately be responsible for the delivery of emergency response-based training programs, aimed at the Offshore Oil & Gas, Maritime and Downstream Petrochemical Industries on behalf of Kersten Training Academy.

Main responsibilities:

- Deliver training courses and competency assessments
- Supervise the delegates throughout the theoretical and practical training/assessment sessions and ensuring that all exercises are conducted in a competent, safe and professional manner.
- On completion of the theoretical and practical training/assessments, compile individual delegate assessments ensuring that all the relevant sections are completed and specific comments are detailed.
- Liaise with fellow instructors/assessors to provide on-going support, learning, mentoring and stimulating a strong team spirit and work ethic at all times.
- Ongoing review of revisions of legislations, ensuring that any amendments are brought to the attention of the Senior Management Team for incorporation within the appropriate course syllabus and training material.

Experience and training:

- A completed VWO education or higher
- Be in possession of a swimming diploma (at least level B or higher)
- Be willing to be included in an on-going staff training development program, which may include offshore visits to enable you to maintain and update your skills and knowledge.
- Teaching and presentation skills.
- Must be passionate, disciplined with strong analytical, negotiating, interpersonal and communications skills.
- Proficient in the use of Microsoft Office Suite.
- Proficient in English

We offer:

- A pleasant and dynamic working environment in the rapidly developing offshore Oil & Gas sector of Suriname
- Personal development trajectory including industry specific training programs based on the international standards
- Growth and Development opportunities.
- Market-based salary in accordance with knowledge and experience
- Good secondary employment conditions.
